

Our Connectional Stories

BOARD OF ORDAINED MINISTRY

Ministerial Education Fund

When I entered seminary, my wife and I decided to not accumulate piles of debt that would then be pressing on us after graduation. In my first 3 years of school, we worked very hard to save the money needed each time the tuition was due. This was a difficult but manageable process. Once I was approved as a certified candidate, I applied for and received MEF monies that amounted to a little under half of my total tuition bill. What this meant for my family was that we could now pay the tuition bill as well as begin to pay off the loans that I had from my first year before my wife had a full time job. As my boys got older, we were able to afford pre-school for them because we were receiving MEF. Not only have I benefited as I am about to graduate from Seminary with no debt, but my family has benefited as we have been able to give them an early start to their own education. We are where we are today because of MEF and God's faithfulness to us in this process.
